# CHANGING IMAGES

*In our lives we make choices which take us down different paths. Along the way we experience new people, places, and situations which allow us to change and grow. For the past four years we have all travelled together down the same rugged road. Although we will soon go our separate ways, we will always share this common bond.*

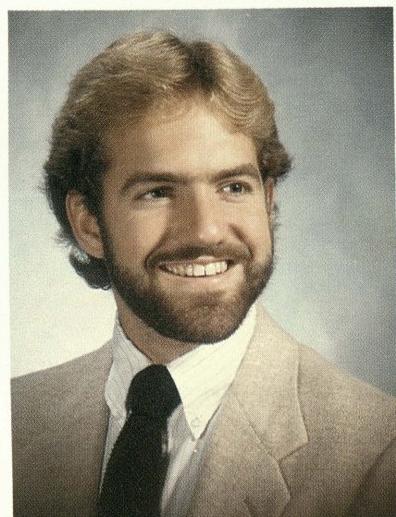

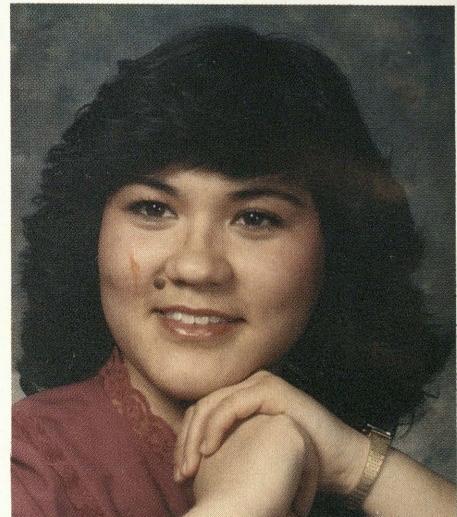

*Greg Brames &  
Judi Brezausek*

# CADUCEUS 1989

*All the world's a stage,  
And all the men and women merely players;  
They have their exits and their entrances;  
And one man in his time plays many parts,  
His acts being seven ages. At first the infant,  
Mewling and puking in the nurse's arms.  
Then the whining schoolboy, with his satchel  
And shining morning face, creeping like snail  
Unwillingly to school. And then the lover,  
Sighing like furnace, with a woeful ballad  
Made to his mistress' eyebrow. Then a soldier,  
Full of strange oaths, and bearded like the pard,  
Jealous in honor, sudden and quick in quarrel,  
Seeking the bubble reputation  
Even in the cannon's mouth. And then the justice,  
In fair round belly with good capon lin'd,  
With eyes severe and beard of formal cut,  
Full of wise saws and modern instances;  
And so he plays his part. The sixth age shifts  
Into the lean and slippered pantaloon,  
With spectacles on nose and pouch on side;  
His youthful hose, well sav'd, a world too wide  
For his shrunk shank; and his big manly voice,  
Turning again toward childish treble, pipes  
And whistles in his sound. Last scene of all,  
That ends this strange eventful history,  
Is second childhoodness and mere oblivion;  
Sans teeth, sans eyes, sans taste, sans everything.*

Although far removed from Indianapolis, "Heavensville" became a mecca of medical education for many eager minds. With the attractions of "Thunder on the Ohio" and Purple Aces Basketball, who could resist this charming city.

# Terre Haute

An aromatic city on the banks of the Wabash, "Terrible Haute" taught us about Dig, B'de viruses, nerve fibers, genetics, and many other subjects. Also home to the fighting Sycamores and the BallyHoo, this is definitely Bird country.

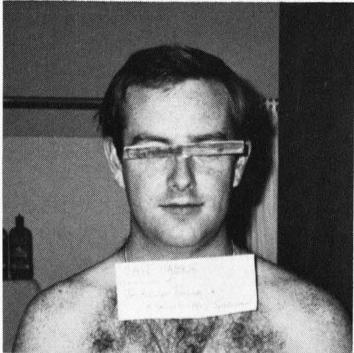

**Top:** Pictured left to right are Carey Gear, Len Bielski, Lucy Yu, Ashish Shah, Cindy West, Jacy Retz, Blake Spain, Eric Gourieux, Chris Quinn, John Lourie, Ali Dohan, Jeff Mathison, Mary Below, Greg Brames, Bob Bond, Brad Eshelman.

# Bloomington

Bloomington was home to our mother I.U. and truly a college town. The Hoosiers got smart and won the NCAA in 1987, but these students persevered with the books rather than waste time at Knight.

Muncie was home to the Ball State Cardinals and Rick Majerus, the MAC's answer to Bob Knight. Also home of "Late Night's" David Letterman, there were far too many late nights at Muncie.

# South Bend

South Bend was home to both Notre Dame and St. Mary's Colleges.

Unfortunately the only way to Indy was — through a place called KOKOMO, where unsynchronized stop lights grow and they drive real slow, down in Kokomo.

# Gary

The home of Michael Jackson, U.S. Steel, and Indiana Dunes State Park, Gary was perhaps best appreciated for its proximity to Chicago.

# Fort Wayne

Fort Wayne was home to, well, Fort Wayne. It was near to the towns of Auburn and Bluffton, though. The shortest term of the branch campuses was spent here, being the only one year center before being moved to Indy.

**Top:** Pictured clockwise are Anjum Usman, Karl Baird, Ken Schaab, Lazo Krstevski, Doug Franke, Jim Cunningham, Bill Collis, Greg Lowdermilk, Steve Lewis, Amy Metheny, and Tom Wozniak.

## In Memorium To Russell Showen

This page is being dedicated to the memory of Russell Showen. As our classmate he attended the Fort Wayne Center during our first year together. Russell is fondly remembered for his dedication, patience, kindness, unselfishness, and his quiet, easy-going nature. During the summer of 1986, he and his fiancee tragically passed away while visiting the Huntington College campus.

Think of him still as the same, I say,  
He is not dead; he is just away.  
Nor is he away from the better part  
Away from the eye, but not the heart.  
And he lingers near to soothe our pain  
And he teaches that life and death are gain.  
And he waits on the bright eternal shore,  
For the handicaps of brotherhood once more.

# Let's Party!

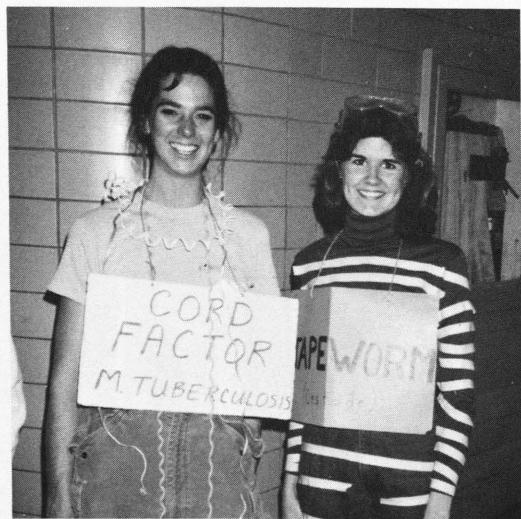

# The Halloween Queen

We were tired and drained,  
Our minds were ill at ease ...  
Then all of a sudden  
She burst through the door.  
She was giggling and dancing,  
Trying to please,  
Spreading smiles & happiness  
And candy galore.  
We were shocked and amazed,  
... as surely can be seen,  
For we had just been visited  
By the Halloween Queen.

— Schopper

The full drama of medical school unfolds during the first year — the comedy and the tragedy await the unsuspecting young men and women who pay their admission ticket and anxiously anticipate the fall of the final curtain. Little do they know what changes they will be required to undergo before arriving at that brief intermission known as graduation. So "eat, drink, and be merry — for tomorrow we die."

**Right:** Seated from left to right are Robert Lee, Michele Makris, Joe Mulholland, Alicia Blando, and Tom Sliwa.

# Party: New Orleans Style

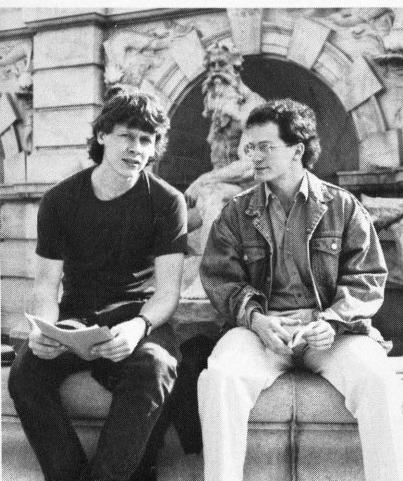

New Orleans is the home of the Mardi Gras, French Quarter, cajun cooking, the Super Dome, and the Saints. It's also the city to which members of the American Medical Student Association flocked in order to show their sense of social responsibility by participating in the annual Nuclear Freeze Walk. Of course, all work and no play makes Johnny (and Todd, and Paul, & Tim ...) a dull boy. So, naturally, this group took a little time out of their busy schedules to do what I.U. medical students do well — study ... er ... I mean — PARTY! Submitted for your approval are just a few of the scintillating shots which took place in that dimension of time and space which we call the AMSA zone.

**Top left:** Paul Dexter and Emily Erbelding, what social awareness.

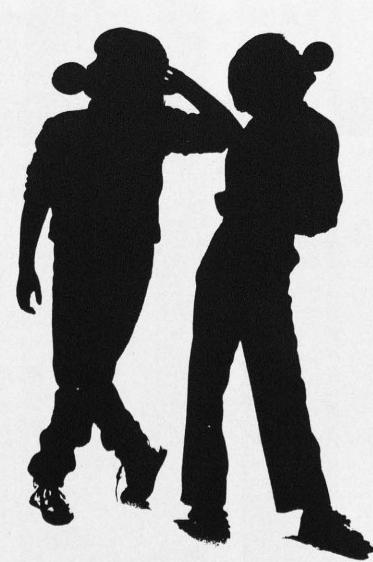

**Above:** Hey, Paul and Todd, what was in those brownies?

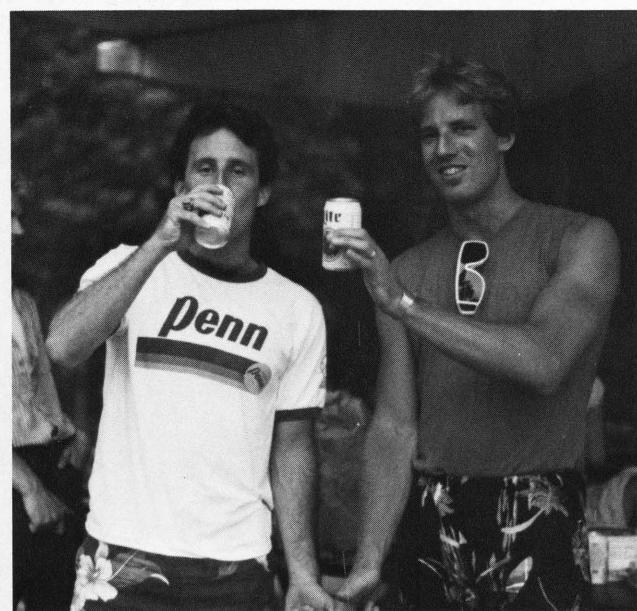

**Far left:** Tim Thomas and Paul Tuite take a break.

**Left:** Med. students form the tail end of the Nuclear Freeze Walk.

**Bottom left:** Todd Rowland, Mimi Fassil, Janet Roepke (JR), Chris Miller, Paul Tuite, and Tom Herbst (JR) in New Orleans.

# Party: International Style

**Right:** Again in Alaska, Tim Thomas is joined by Bryan Bognar.

**Center left:** How far will Marcela Vinocur go for a beer run? Ensenada, Mexico.

**Bottom left:** Kristi Koch heads for Africa for fun.

**Bottom right:** Bryan Bognar sets his sights on Nairobi, Kenya.

Some Medical Students Go To  
Great Lengths To Have Fun.

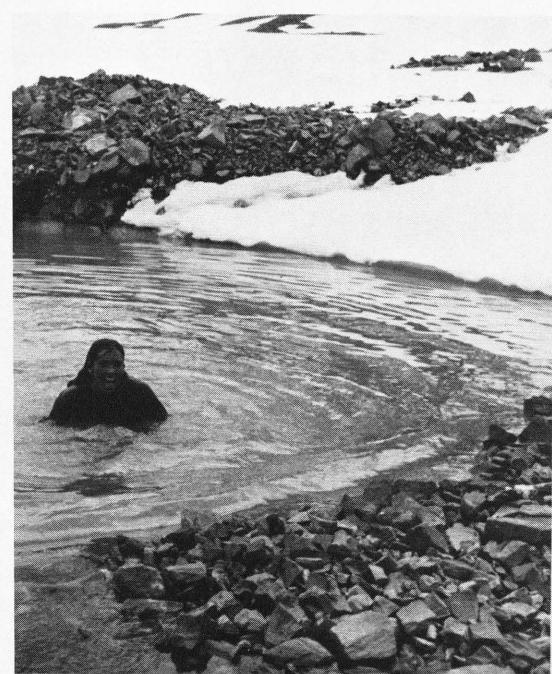

# Party: Nonalcoholic Style

Who Needs Beer To Have A Good Time?

## Just Say "No"

Whatever happened to good clean fun? Who says you can't enjoy yourself unless your blood alcohol level is 0.10? Why do class parties always have to run up such exorbitant costs because keg refreshments are felt to be "necessary" when they most certainly are not?

We have to learn to just say "no" to drugs, say "yes" to good health and get "high" on life.

**Above left:** Enjoying good clean fun is Amy Metheny.

**Above:** Kristi Koch takes a dip up in Alaska.

**Below left:** Anjum Usman and her fiance enjoy being outdoors with each other.

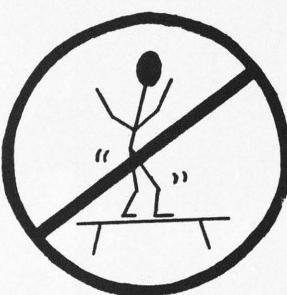

**Below:** Steve Stockberger and Ashish Shah pose.

# Party: Michigan Style

Ah, Schuss Mountain, what memories. It was a place where just about anything could happen . . . and did. (Hey, I still say that person dancing on the table tops was really Meredith on her knees wearing a dark wig.)

**Below left:** Ann Calkins and Chris Miller are excited about having tackled the Black Diamond slopes.

**Below right:** Kristi Koch, Steve Stockberger, Drew Mikulaschek, Dan Feeney, and Joe VanCamp take a break from the slopes.

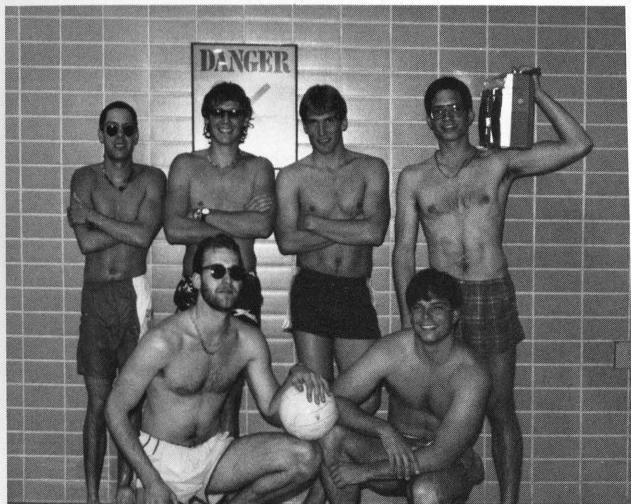

**Bottom left:** Anne Calkins, Meredith Driscoll, Steve Stockberger, Jim, and Chris Miller enjoy each others company.

**Bottom right:** Jim Dy, Todd Rowland, friend, Steve Zierer, Sara Corya, & hubby Greg.

# Let The Games Begin!

Med. School Helps Build More Than Just A Health Mind.

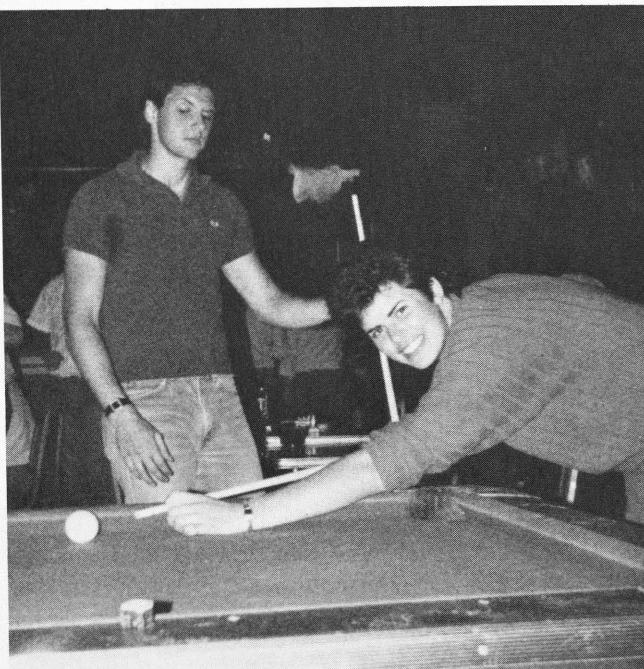

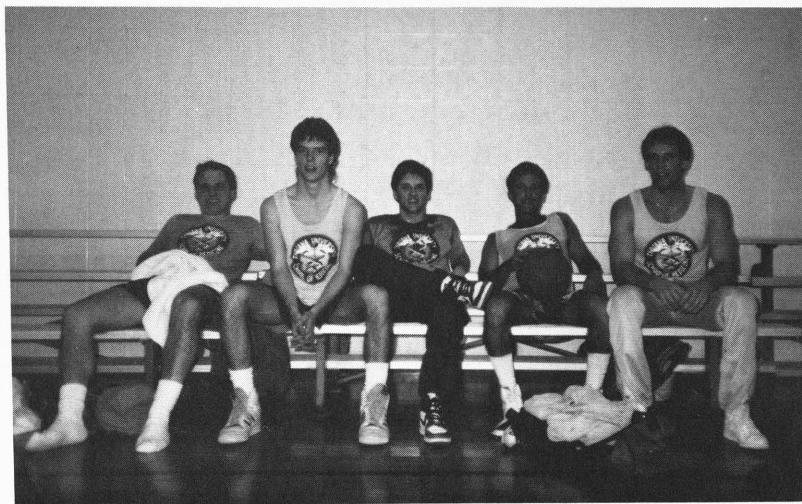

**Above:** The Notre Dame Water Volleyball Champions. Mike Solmos, Tim Thomas, Seth Scholer, Doug Ertman, and Kevin Beckman.

**Above right:** The Evansville Champion Basketball team, with such illustrious players as Bob Buthod, Mark White, Tom Lazoff, and Scott Taylor.

**Below right:** Some of the Indy baseball sluggers Drew Mikulaschek, Steve Ikeda, Joe Van Camp, Jim Bollier, Kyle Carr, Duck McIntire, Jack Hall, Howard Morrison, Dale Guse, Scott Holley, and Mark Lemmons.

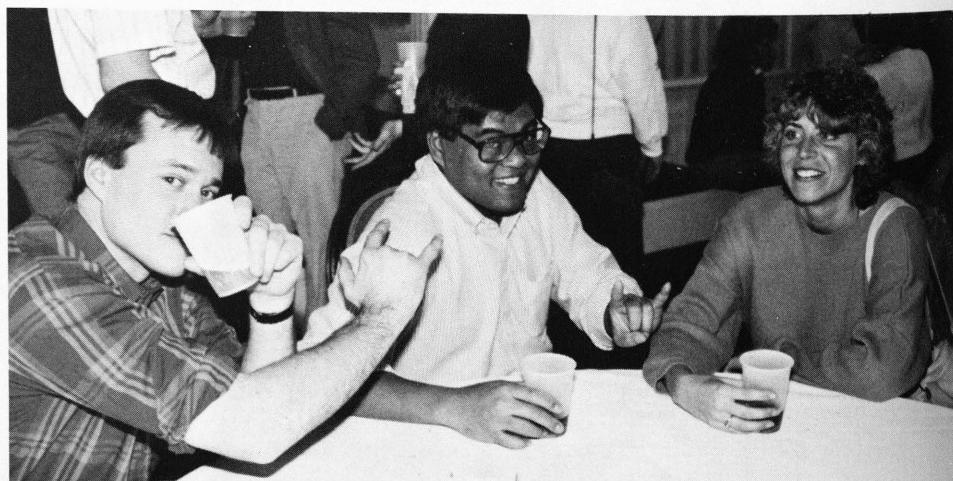

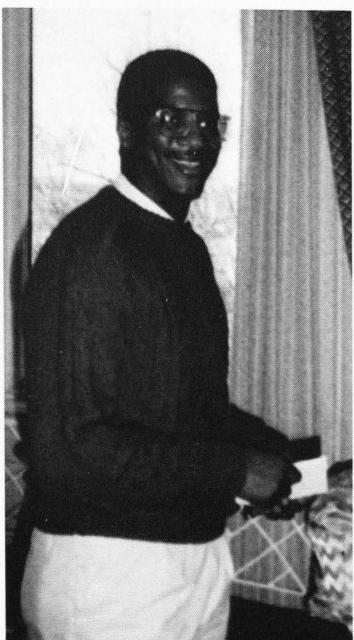

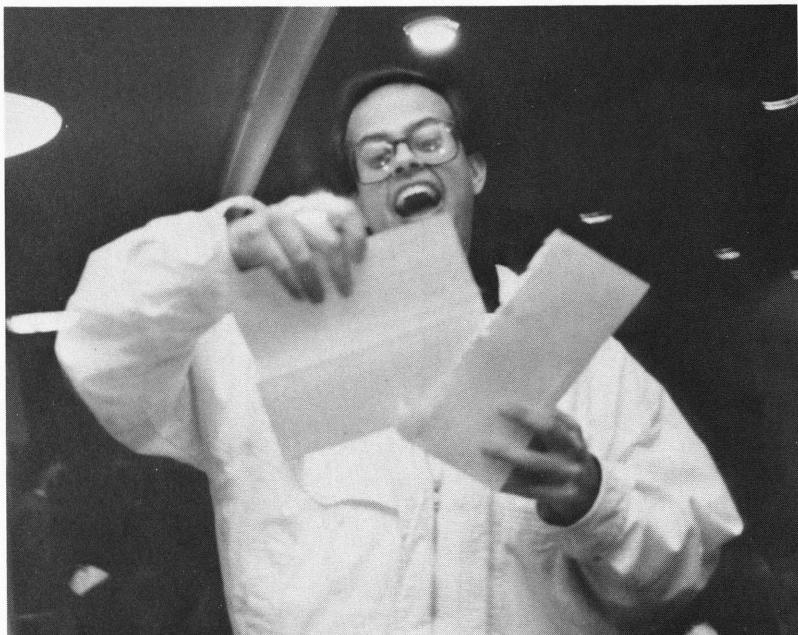

Yes, Medical School builds more than just a strong mind — or a pretty face for that matter. It can provide us with many opportunities to build strong bodies and friendships through various sporting events.

Whether one chooses the baseball diamond, basketball court, volleyball court, or pool; the chance to share a good time outside of the classroom setting is ever present. In winter, spring, summer, or fall, a little healthy competition and good sportsmanship can be found in the students at the Indiana University School of Medicine.

# Match Day

*Ask, and it shall be given you;  
seek, and ye shall find; knock,  
and it shall be opened unto you.*

*Matthew 7:7*

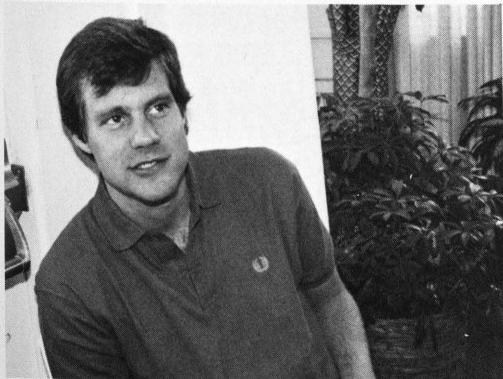

**Above Left:** Ashish Shah shows his genuine surprise at his NRMP match.

**Above:** Mark and Mary Duerden are the "mascots" for "match day", being a match themselves.

**Left:** Toby and Amy Chai, Belinda Watts, Doug Franke, Chris Miller, and Jacy Hunsicker are the knights of the round table.

## MALLORY-HEAD HIP PROGRAM

Biomet's Mallory-Head Hip System offers the largest array of component designs for both primary and revision total hip arthroplasty. All Mallory-Head femoral components promote increased proximal load transfer within the femur to re-create near normal bone stresses. This feature, coupled with both modular and molded acetabular designs, make Mallory-Head the system of choice for total hip arthroplasty.

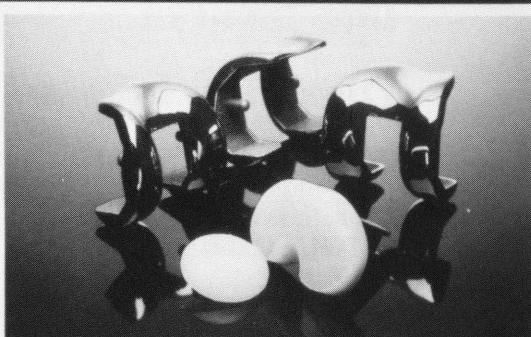

## BI-METRIC HIP SYSTEM

Surgery made simple... The Bi-Metric Advantage. Whether you require porous or non-porous, collared or collarless, revision or primary components, the Bi-Metric System will satisfy your surgical needs. More importantly, you only need one set of instrumentation to precisely implant any of the Bi-Metric components. Contemporary implant design combined with ease of implantation... only from Biomet.

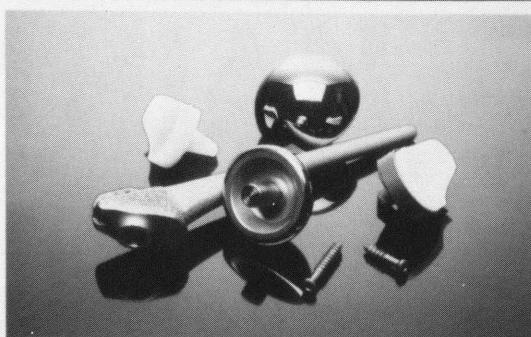

## AGC TOTAL KNEE SYSTEM

The AGC Total Knee System is a complete system of anatomically graduated components and easy-to-use instrumentation designed for reproducible results and intraoperative flexibility. All components are completely interchangeable, allowing optimal fit. Extramedullary or intramedullary instruments address patients with or without severe, fixed deformities, while the patented calibrated distractor ensures soft tissue balancing. Choose the Biomet solution... AGC Total Knee System.

## BIO-MODULAR TOTAL SHOULDER

Flexibility achieved through design... The Bio-Modular Shoulder System. Comprised of four stem sizes and six neck lengths, the system's modularity allows ease of implantation for both total and hemiarthroplasties. Two glenoid thicknesses, combined with humeral modularity, allow the optimization of soft tissue tensioning. The modular design also provides unequalled intraoperative flexibility in achieving the desired patient fit. Flexibility from Biomet... The Shoulder Source.

# Imagine Medicine Without A Medical Society

## There Would Be No One

- to speak for you at the legislature
- to represent you before Congress
- to stand up to HHS for you
- to work effectively with governmental programs
- to go to court for you
- to stand firm against NHI
- to fight for you in an insurance crisis
- to represent your views to the media
- to help medically educate the public
- to up-date you on medical news/issues
- to assure quality medical education
- to answer your questions
- to help with problems of third party carriers

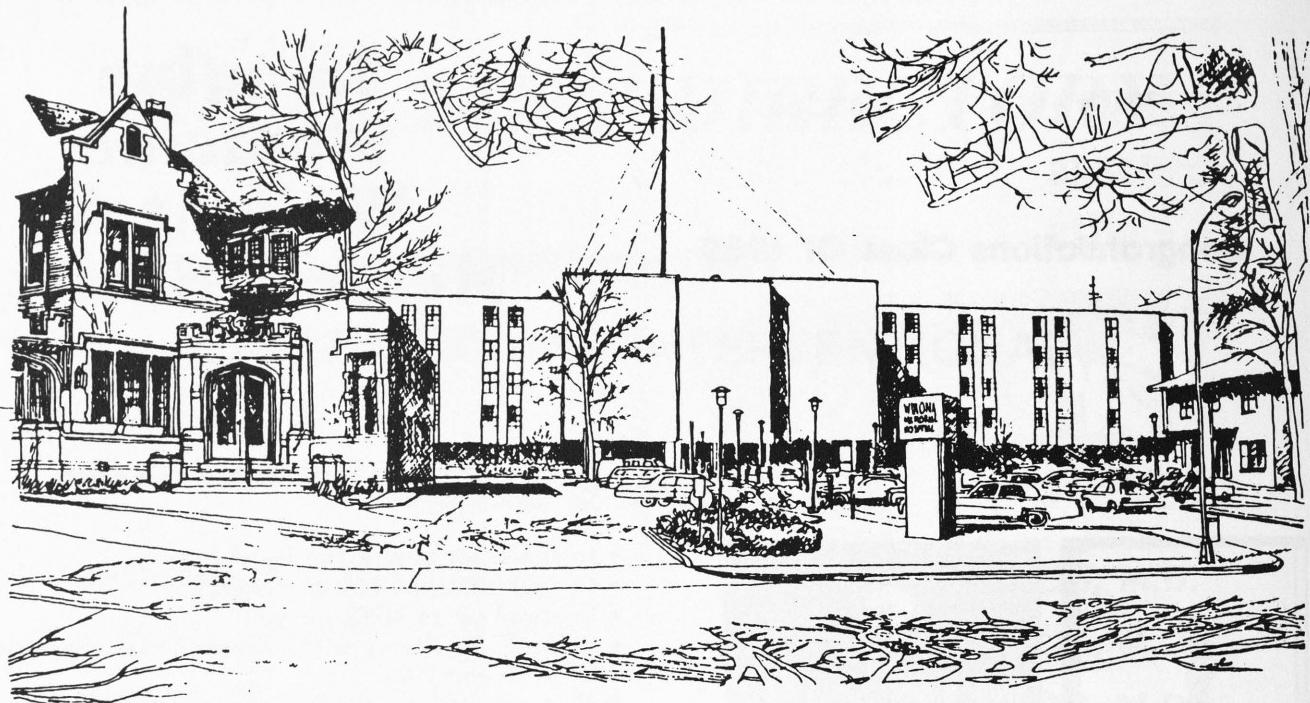

... but you

You and your county, state and national medical societies, together as a team, can do all of the above effectively and in your best interest. Their purpose is to work only for you, the physician, who doesn't usually have sufficient time or knowledge needed to preserve, protect and insure the progress of high-quality, independent practice of medicine in today's complicated and rapidly changing world.

Your medical society team can provide you with a liaison with government, medical-legal consultation, lobbying in your best interests, concerted political action, insurance programs, news media relations, public information/education programs, membership publications to keep you informed, continuing medical education, and many other benefits.

From

**St. Vincent  
Emergency Physicians**

We've been defending doctors  
since these were the  
state of the art.

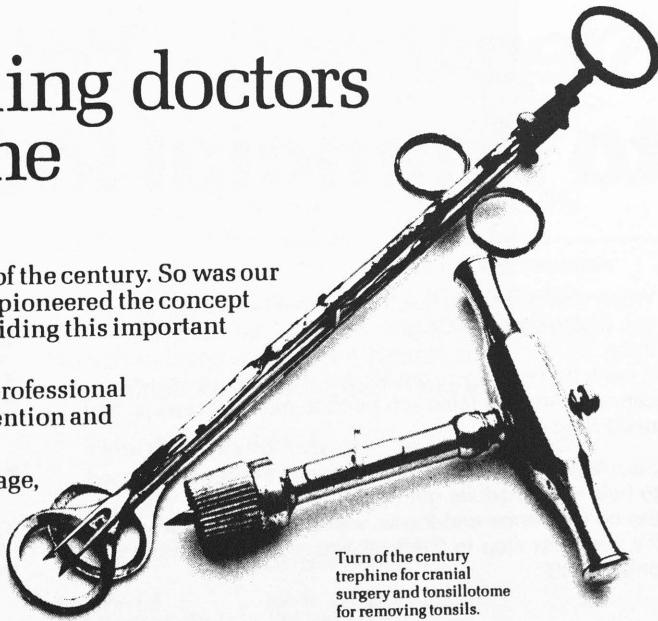

These instruments were the best available at the turn of the century. So was our professional liability coverage for doctors. In fact, we pioneered the concept of professional protection in 1899 and have been providing this important service exclusively to doctors ever since.

You can be sure we'll always offer the most complete professional liability coverage you can carry. Plus the personal attention and claims prevention assistance you deserve.

For more information about Medical Protective coverage,  
contact your Medical Protective Company general  
agent. He's here to serve you.

## **Booby Prize**

A booby prize goes to one classmate who kept promising to do work for the *Caduceus* but never came through. He did all this so that he could claim to be a yearbook editor on his CV and personal statement when applying for residencies. The thanks for being continually unreliable goes to:

Bob Predaina

We have travelled down a common path  
for four short years, but we have passed  
that fork in the road at which we began to  
go our separate ways. Wherever you now  
may roam, always remember these words:

#### TRUE GREATNESS

A man is as great as the dreams he dreams,  
As great as the love he bears;  
As great as the values he redeems,  
And the happiness he shares.  
A man is as great as the thoughts he thinks,  
The worth he has attained,  
The fountains of which his spirit drinks,  
The insight he has gained.  
A man is as great as the truth he speaks,  
The credit he helps he gives,  
Great as the destiny he seeks,  
Great as the life he lives.

C.E. Flynn
